ESSAY PROOF SOCIETY ISSUES YEAR BOOK

The year book of the Essay Proof Society should now be in the hands of all the members of this organization. It serves the function for which it has been printed quite well and that is to introduce a complete listing of the members, the officers, the society chapters and the benefits and the rules. Chester A. Smeltzer is president of the Society, while the office of Secretary is held by Stephen G. Rich, P. O. Box B, Verona, N. J.

A design that will in all probability be as popular as the ship that is to be honored is that for the 3c commemorative stamp on the occasion of the 150th Anniversary of the Launching of the "U. S. Frigate Constitution". Quite simple, and most attractive, the central design consists of a naval architects line drawing of the Constitution. Andrew H. Hepburn of Boston, a naval architect by trade, designed the stamp after much research on the matter. First day of issue of the stamp will be October 21, and all covers will be postmarked from the temporary post office established on board the Constitution for the day. No color has been announced for the stamp as yet, but it will in all probability be a blue. Whatever it might be, it is to be hoped that it enhances what is a most attractive design.

DEDICATION

This edition of Linn's Weekly Stamp News has been several weeks in the making in anticipation of the release of the official announcement of the issuance of the stamp in honor of the 150th Anniversary of the Launching of the "U. S. Frigate Constitution". We feel especially fortunate in being able to offer to our readers the article on the "Constitution" by one of her staunchest friends, and an authority on the ship, H. M. Brehm of New London Wice.

to our readers the article on the "Constitution" by one of her staunchest friends, and an authority on the ship, H. M. Brehm of New London, Wisc.

We are indebted also to Commander R. H. McIlwaine, USNR officer In Charge, Special Activities, Executive Office of the Secretary, Navy Department, Washington, D. C. for sending us pictures of the Constitution, two of which appear in this issue. Commander McIlwaine graciously supplied a log of the Constitution also, and it is from this that historical facts about the ship are presented.

It will also be a day of fulfillment on October 21, the first day of issue of the stamp, for Harold Faust. For several years, and months on end this enthusiast kept plugging away by every means possible to get the Post Office Department to issue a Constitution stamp. Many times, official indifference to the project furnished some black days for Faust. But now all that is forgotten; he has fought his battle for a recognition of this symbol of America, and has won.

It is to H. M. Brehm, too, that a vote of thanks must go for his activity in behalf of having the first day of issue of the stamp made from the decks of the ship the stamp honors. His was the first call to Third Assistant Postmaster General Lawler for Issuance of the stamp and the cancellation of the first day covers from the Constitution. His activity in this regard, when he stirred up public sentiment among stamp collectors, is most commendable.

This issue then is dedicated to those enthusiasts, in all parts of the world, who prize the life, liberty and the pursuit of happiness so well symbolized by that gallant ship of the line, the

Postmaster General Robert E. Hannegan made public the de-Postmaster General Robert E. Hannegan made public the description of the new 3-cent Constitution postage stamp which is to be placed on sale for the first time by the Post Office Department at Boston, Massachusetts on October 21. This new stamp which is being issued in commemoration of the 150th Anniversary of the launching of the U. S. Frigate Constitution, better known as "Old Ironsides," will have as its central design a naval architect's line drawing of the Constitution. The naval architect who drew this design from the best available sources is Andrew H. Hepburn of Boston.

Boston.
Supporting the main motif on either side are naval guns of that era drawn from Navy Depart-ment records of the twenty-four pounder originally mounted on this famous fighting ship.

representing the number of states in the Union in 1797, the year of the launching.

The constitution is shown running before a light breeze and approaching a home port with her commission pennant at the main.

The stamp is 0.84 inches by 1.44 inches in dimensions arranged horizontally. This is the same size as the current special delivery stamp. Arranged in the upper left and right corners, respectively, is the wording, "United States 3c" and "Postage 3c" in Roman type. In a ribbon across the bottom appear the inscription, "1797 U. S. Frigate Constitution 1947" in the same lettering. The color of the new stamp will be announced later by the Post Office Department.

revenue stamps to supplement this lack. So far we have seen the 5c green and a 10c brown of the regular revenue issue overprinted in three lines "Correos de Venezuela". This overprint is apparantly applied by a rubber stamp in purple ink and of course exists in every possible position, in many cases tieing the stamp to the cover. It is supposed that these stamps are applied to the envelope after which a hand stamp is applied, after which the cover is cancelled. If this surmise is correct these stamps will not is correct these stamps will not be available in mint condition, and as they are peng used on commercial mail will probably prove to be very scarce.

BE ISSUED OCT. 21, 1947 - BOSTON, MASS. Though the Frigate Constitution was launched in 1797, she did not become endeared to the American people until the War of 1812. On August 19, 1812, when the tide of war had brought the morale of the people to its lowest ebb, Captain Issae Hull in command of the Constitution won a brilliant victory over the British Frigate Guerriere. This changed the course of the war and renewed the peoples' hope. In this battle she was dubbed "Old Ironsides" by her crew when the shots of her opponent actually Bounced off her sides. The Story Of The "U.S. Frigate Constitution" Has Become Part Of The Great American Tradition

By CARL P. RUETH

On March 27, 1794 a law was approved by the President of the United States, George Washington, authorizing the construction of six frigates. The "Constitution" was one of these. In November of that same year the keel was laid at Hart's Shipyard in Boston. The ship was designed by Naval Constructor, Joshua Humphreys, and was built under the supervision of George Claghorne and Mr. Hartley, in Boston. Inspector of O struction for three years. He was commissioned to this post on March 7, 1797. It was not until the night of July 22, 1798, at 8:00 p. m. that the Constitution left her dock at Boston and headed for the high seas for the first time in her amounts are the first time.

the construction of the frigate was Captain Samuel Nicholson. This ship which cost the United States \$302,718.84 when comstates \$302,718.84 when completed had the following physical dimensions: Length overall, 204 ft.; length on load water line, 175 ft.; breadth of beam, 43 ft., 6 in.; depth of hold 14 ft. 3 in.; original tonnage, 1576; displacement, 2,200 tons; while her best sailing draft was 21 feet forward and 23 feet aft. She carried 48,600 gallons of fresh water, and provisions for her crew of about 475 officers, seaman and marines sufficient for six months cruising.

Her original armament of 44 Her original armament of 44 guns was changed from time to time. In 1812 she carried the following powerful armament. On the gundeck, thirty long 24 pounders; on the quarter deck, sixteen 32 pound carronades; and on the forecastle, in addition to her two long 24 pounders and one long 18 pounder for chasing she long 18 pounder for chasing, she had six 23 pounder carronades.

The first two attempts to launch the Constitution ended in failure. The first launching took place on September 20, but was not successful, although it was on this day that as a part of the ceremonies the Stars and Stripes were raised over her for the first time. Two days later, on September 22 another launching was attempted, but this was not a success either It was not until October 21 that launching operations were successful, after which the ship was docked to receive its fittings and armament. The Blind Are Told About The Proposed Santa Claus Stamp

We were very much intrigued by Mr. George D. Van Aken of Osprey, Fla., who as far as hav-ing an interesting hobby is con-cerned other than stamps, just about takes first prize. Mr. Van an interesting nobby is concerned other than stamps, just about takes first prize. Mr. Van Aken, for his own amusement and also "to rest his eyes" subscribes to a magazine issued in Braille, the finger tip reading method used by the blind. He finds that in the "Weekly News" which is printed in Boston for the blind, in Braille, that an Associate Press Dispatch is carried about the Santa Claus stamp. This dispatch which Mr. Van Aken has translated from the Braille, states that a Santa Claus stamp has been worked on by the Post Office Department all during the month of August.

SCOTT BARS TWO ROOSEVELT ISSUES

We learn from an article by Mr. Kent B. Stiles, stamp columnist of the New York Times in an article in that paper of Sunday September 14th that Mr. Gordon Harmer, president of Scott Publications has made the announcement that

the Roosevelt issues of both Hungary and San Marino are to be denied listing in the forthcoming Scott Standard Catalog and that furthermore these two sets will be omitted from Scott albums. We are particularly pleased at this announcement since it was our publication that first launched a war on issues of this nature with reference to these particular Roosevelt sets. Whether Mr. Harmer has included all of the issues that

should be so treated is a question we will GEO. LINN let him decide, now that some action is being taken. We do note however that Mr. Harmer apparently looks with disfavor on the issues of both Costa Rica and Guatemala, both of which show all the appearance of having been rigged to rook the collector.

It is also interesting to note with reference to our original charges as concerns the issue of the Hungarian set, that information in the hands of Mr. Harmer seems to support nearly all of our charges against these stamps and we now expect some of our friends who so strongly supported this issue to revise their opinion of our expose of them.

We might also suggest that some advertising patrons who became so wrought up over our expose of this issue as to penalize us, might now give thought to the final result. We have refrained from mentioning names in this case, but assure our readers that we have been obliged to suffer the loss of some valuable advertising as a result of our effort to protect the hobby, whereas these gentlemen seemed to carry the thought that we should let the dealers scalp the public as they chose. It is high time that stamp dealers observe a code of ethics in their business that could rank stamp dealing with other honorable lines of trade.

We are taking the liberty of reprinting the article by Mr. Stiles in this issue of the News.

SERVING OUR READERS

For more than three years past we have been endeavoring to purchase and install a modern new addressing machine for our paper, one whereby we could add expiration numbers to the printed address and keep our readers informed of their expiration dates. Due to the fact that the company which made these machines was in war work, only in the past couple months have we been able to get this new equipment. It is now completely installed and the number following your name on your address is the whole number of the paper as shown on the date line on the first page of the paper. When the number on the paper agrees with that on your address, your subscription expires and the machine automatically throws your address stencil out of the files. To avoid missing a number, we now send by first class mail, a letter of advice that your subscription will expire in four weeks. We urge that you renew immediately for if you put it off you may put it off too long, for once your address is out of the files it may take a week or two to get it back, dependent on the day of the week your subscription renewal is received. Every thing on our subscription files runs like clockwork and rotates completely once a week.

For example, each Friday we enter new subscriptions received in the past seven days. If your renewal reaches us after Friday, it must be held until the following Friday to get into movement for you. Thus do not delay, you will be better served. With the letter of notification we send you we enclose three subscription forms that we ask you to give to friends, that you may help increase our circulation. We hope that you will do this favor for us for you are getting for \$1.00 per year, more good Philatelic news and information than you can get in any other paper in the United States for double that price.

To prove this we have just checked our nearest competitor and compared their issue of September 6, the last one at hand, with our latest issue and here is what we find in this comparison.

Total Col.IN. In Pape 1280 Inches Inches
Page Advertis 535 Linn's Weekly ____ _16 Our Nearest Competitor___36 30 763 287 1080

The above figures show a discrepancy of 30 inches between number of inches of advertising and reading combined as against total number of inches in the paper, for our competitor. This 30 inches is accounted for by the colored front cover which can be classed neither as reading matter or advertising matter.

The above figures therefore show you that besides a volume of advertised offers almost equal to our competitor, the volume of reading matter which we supply you is almost double that in the other paper.

Certainly after carefully reviewing our last issue no collector could expect more for a dollar per year and no more can be had in other papers at double that price.

We feel confident you can not go wrong if you recommend Linn's Weekly to your friend collectors. Let us have your support for a bigger circulation which will result in a bigger and better paper. Make your renewal pomptly.

New Zealand To Issue Centennial Stamp Set For Otago Province

A special issue of postage stamps to commemorate the Centennial of the Otago Province is planned for release by the Postal Administration early in the year 1948. Three stamps are foreseen at present, although a fourth value may be added if the need arises. After the set is released, it is planned to keep it on sale for a period of approximately three months, after which it will be withdrawn, and any remainder destroyed.

GORDON GRANT

# RONSIDE

BY H. M. BREHM

(FOREWORD—The United States of America, ever a peace-loving nation, has been told by 'noted authorities' for the past century and a half that her Navy is always, woefully, perhaps even deliberately, undersized and undermanned.

They point out that the War of 1812 had to be delayed two years, because we had only 76 ships to fight Englands 1000 ships; and that we have been lagging in strength ever since.

But we can build and man a tremendous Navy in a hurry when it becomes necessary. After the three-power 60-60-46 naval treaty in the 1920's we scrapped enough ships to reduce our Navy to 842,000 tons.

At the time we entered World War I we were back to 1,600,000 tons. On Armistice Day, we emerged with over 2,000,000 tons.

We entered World War II with approximately this tonnage and 160,000 navy personnel. On V-J Day, we had 15,000,000 tons of ships and 3,500,000 men—a larger Navy than all the rest of the world combined.

Maybe the Continental Congress had some forethought of this when it authorized the building of six war vessels in the 1790's, to be used in service against the pirates of Algeria. The CONSTITUTION became the most famous of these ships.)

Continental Congress authorized the building of the when it authorized the building of six war vessels in the pirates of Algeria. The CONSTITUTION became the most famous of these ships.)

Continental Congress authorized the building of the frigate CONSTITUTION in 1794. (Webster defines a frigate as originally a light vessel propelled by sails and by oars; later, a ship-rigged war vessel, intermediate between a corvette and a ship of the line.) She was designed by Joshua Humphreys, a famous marine architect of that day. She was built at Hartts shipyard in Boston and completed in 1798. She was a 44-gun frigate of 1576 tons.

The CONSTITUTION first became Preble's flagship during the war against Tripoli. In 1805 she took part in 3 out of 5 bombardments off that coast. In the War of 1812, under Hull, she attempted to join her squadron in New York, but was cut off by some English ships, including the GUER-RIERE. By a lucky run of 3 days and 2 nights, she outran and out maneuvered the enemy. But on August 19th she met the GUERRIERE again, off Cape Race, and in 25 minute's time reduced her to a total wreckage. She was sinking, couldn't be towed to port, and had to be blown up to eliminate her. It was during this encounter that she was nicknamed OLD IRONSIDES, because the enemy's cannon-balls were reported to have literally bounced off her sides. (Of course, she was built entirely of thick, seasoned hard. On the long has it waved on high.

FURTHER EXPLOITS

Later in 1812 she became Bainbridge's flagship for a cruise against English commerce in the East Indies. On December 29th she encountered the JAVA off the coast of Brazil. At once one of the fiercest naval battles ensued. The CONSTITUTION had her wheel shot away at the outset, making navigation almost impossible. She found the enemy a better sailer too. But the American gunnery was more intelligent can gunnery was more intelligent can gumery was more intelligent and her raking broadsides were superb. Finally coming to close quarters, she inflicted ruinous damage and frightful slaughter upon the JAVA.

The CONSTITUTION had to be

The CONSTITUTION had to be taken to Boston for repairs after that encounter. While there, the port was blockaded, and she did not again roam the seas until New Year's Day, 1814, when Captain Stewart took her on a cruise to the West Indies. She captured prize vessels, one of them the English schooner PICTON. Again blockaded by a powerful enemy blockaded by a powerf

English schooner PICTON. Again blockaded by a powerful enemy squadron, she could not escape until December 17, 1814.

In 1830 the CONSTITUTION again encountered 2 English vessels. The CYANE struck and was captured. The LEVANT chose to run, but was overhauled and also surrendered. Finding herself in a "neutral port" with her 2 prizes (England sneered at neutral ports) the LEVANT was recaptured by the English, but the CONSTITUTION and the CYANE, aided by fine seamanship, escaped. aided by fine seamanship, escaped.

# UNSEAWORTHY

1830 the CONTITUTION In was declared unseaworthy, after her many wounds and battles, and condemned to be broken up. Then it was that Oliver Wendell Holmes wrote his famous poem and published it in the Boston Advertiser:

| All Condemned to be broken up. Then it was that Oliver Wendell Holmes wrote his famous poem and published it in the Boston Advertiser:

"OLD IRONSIDES"

Ay, tear her tattered ensign down!
Long has it waved on high,
And many an eye has danced to see
That banner in the sky;
Beneath it rung the battle shout,
And burst the cannon's roar;
The meteor of ocean air
Shall sweep the clouds no more.
Her deck, once red with heroes' blood,
Where knelt the vanquished foe,
When winds were hurrying o'er the flood,
And waves were white below,
No more shall feel the victor's tread,
O'r know the conquered knee;
The harpies of the shore shall pluck
The eagle of the sea!
Oh, better that her shattered hulk
Should sink beneath the wave;
Her thunders shook the mighty deep,
And there should be her grave;
Nail to the mast her holy flag,
Set every threadbare sail,
And give her to the god of storms,
The lightning and the gale!
This thrilling appeal, plus the
public clamor it aroused, saved
the noble ship. That was 117 years
ago.

SINCE 1830

OLD IRONSIDES was rebuilt OLD IRONSIDES was rebuilt and again put in service in 1833. In 1844 she sailed around the world on a good-will tour, travelling 52,279 miles. In 1852 she became the flagship of the African squadron operating against slave traders. After the Civil war she became a training ship for many years.

towed into Boston harbor, where the fleet waited, to celebrate her 100th birthday. After the cele-bration, she was roofed in at Bos-ton Navy yard, to become a bar-rack ship until 1925. In 1927 our Congress very gra-ciously permitted her to be re-paired with millions of pennies from our schoolchildren.

HER EAST COAST TOUR
In 1931 OLD IRONSIDES was
ready to show herself to those
school children up and down the
Atlantic coast. Thousands of them
came on board at each port of

Bath, Portland, Gloucester, New Bedford, Providence, Newport, New London, Oyster Bay, New York, Newark, Wilmington, Phila-delphia, Newport News and Nor-folk. She arrived in Yorktown in time for the Fair, to help celebrate the Sesqui Centennial of Corn-wallis' surrender, and to cancel some of the new Yorktown post-age stamps. age stamps.

# ABOUT THE AUTHOR

H. M. Brehm of New London, Wisconsin says that he is an ordinary American who has always been interested in anything that his eyes see and his ears hear. He first became interested in stamps in 1927 when he settled in Appleton, Wisconffer a Florida soiourn. when he settled in Appleton, Wisc. after a Florida sojourn. He was secretary of the Appleton Philatelic Society in 1929 and 1930 and until the time he moved to California near the end of 1930. In San Diego, he designed the eachet for the designed the cachet for the first flight of CAM 33 at the request of the postmaster (supposedly the only time a civilian made a cachet for the P.O. D.). Other cachets of his design were for the welcoming of the Tenth Olympiad officials, to welcome Amelia Earhart, and finally the cachet for the to welcome Amelia Earhart, and finally the cachet for the visit of Old Ironsides to San Diego. Moving back to his home state of Wisconsin, he began a definite concentration on collecting the stamps of the the United States. Each stamp has been carefully written up and mounted, and wherever possible, a mint block of four of the stamp is shown. He also collects signatures of the great and the near great in the United States for the last 20 years and these are kept in four volumes. He is an authority on the "U.S. Frigate Constitution", and we were well pleased to have him answer our plea for an article on her with a definite and enthusiastic, "YES".

BAHAMAS. Due to the inability of the London printers to deliver the Bahamas Tercentenary set for many months, plans were changed and it is now reported that this set will be printed in Canada. It is expected that there will be fifteen values and that they will be released during 1947 1947.

NORFOLK ISLANDS. It seems that this dependency of Australia is joining the ranks of collector exploiting countries, as it is hard to conceive the necessity of special stamps for the Norfolk Islands. The recently issued set was of twelve values up to the two shilling, and if this offering takes, it may seem desirable to add a few higher values. The entire population is about 1000 and the total area about 13½ square miles. The only redeeming feature is that these stamps will be in plentiful supply so that the sucker collectors can get them, for NORFOLK ISLANDS. It seems collectors can get them, for money.

TONGA. Most of the stamps of this colony were in use for a long time. The pictorial set issued in 1897 were used without change until 1920 when several

changes were made and the por-trait of the new Queen Salote ap-peared on some values. The paper was watermarked "turtles," and it was not until 1942 that the mul-tiple crown and script C. A. wa-termark was substituted for the

GREAT BRITAIN. It is rumored that there may be a special stamp or stamps issued in connection with the Royal Wedding, which is scheduled for September or October. It is also considered probably that stamps may be issued in connection with the Olympic games to be held in England in 1948. and in 1948. NEWFOUNDLAND.

NEWFOUNDLAND. It now appears that Newfoundland will eventually join up with Canada in order to overcome present financial conditions. If this occurs, it will be the end of Newfoundland as a stamp issuing country and this may have serious effects. land as a stamp issuing country and this may have serious effects on the popularity of these stamps. The philatelic history of all countries who discontinue the issuance of stamps, has been the gradual loss of popularity. However, Newfoundland stamps have always been very popular and it is possible that this may be the exception.

# ANNIVERSARY **\$20.00**

Here's one comprehensive season opener that includes the two main items I've been advertising for the past 2 years. \$20.00 buys all these:

- One set of 11 of the First Edition Title Pages. (These I sell at \$15.00). Six of the pages will be delivered by return. Balance as issued. One page will be autographed by the artist, Arthur Szyk.
- 360 of the Philatelic Maps in units of 72. One set will be sent by return, balance as issued. (These I sell at \$5.00, total). Subscriptions will be extended to those already getting the maps.
- No premiums are given with the Title Pages and none will ever be, in fact the only thing I can promise is that the price of the first editions will be raised regularly, as the limited edition is depleted, until the price is \$5.00 per page.

  However, with the 360 Philatelic Maps, I will give this time a really remarkable premium. This will be a stamp listed by Scott, guaranteed in every way, and of which only about 3,000 were ever issued! Easily worth \$10.00 or more alone.
- Item #4 is in the nature of a pleasant surprise and it is given with the above just to mark my 25 years as a stamp dealer. All I will say about it here, is that it is both extraordinary and valuable. Actually it is something of which I have only one or two and spread over very many countries. In fact would like buyers to specify their favorite countries.

Like everything else I sell, it's always money back if unsatisfactory, so do not hesitate if those last two items sound rather vague. Remittances in any form: cheque, currency, money orders, also mint U. S. commems are acceptable at face value. Above lot also available on terms: \$5.00 down, balance \$5.00 per month.

By now there must be hardly a stamp collector alive, who, if he gets a stamp magazine, has not read at least several hundred articles and testimonals concerning the beautiful Title Pages. If there are still some who hesitate to get these, consider the statement below. It is Not a testimonial. there are still some who hesitate to get these, consider the statement below. It is Not a testimonial. It is an opinion, backed by the knowledge and authority of the most famous art critic on this continent; Thomas Craven. (Your Public Library is certain to flave books on art by Thomas Craven).

> "In this instance the foremost miniature painter of modern times has devoted his skill as a designer and his decorative talents to a most remarkable project. The results are Title Pages of extraordinary charm, the finest example of the art of illumination now being done. These paintings are not only unique in this field but they also capture the particular spirit of the various countries represented."

PERSONAL GLIMPSES
Eventually, I found time to get
acquainted with the captain of
OLD IRONSIDES, Commander
Louis J. Gulliver, and spent many
a pleasant hour in his office and
quarters on the second deck (my
own designation), which covered
the entire stern.

The top deck was free and clear and open, except for the cannon—

# OLD IRONSIDES (Continued from Page Six) STITUTION -- WELCOME

Yorktown Commemorative Stamp

ON TO THE PACIFIC about 28 of them then, I'd guess. The free space was needed, because the guns had to be drawn inward for loading; they were all muzzle-loaders in those days.

The deck below, the second deck, also contained the other officers quarters, their dining room, various offices, including the tiny 4 x 4 postoffice. This deck was just 6 foot high, and I had to crouch or bump my head.

The third deck contained the enlisted mens' quarters. It was just about 5 foot high—pity the poor 6-footer down there? By the end of her Eastern tour, such a hue and cry had gone up from the West coast that it was determined to send OLD IRON-SIDES on a Pacific tour in 1933. She left her home port in December 1932 and wisted Guentanemer. ber, 1932 and visited Guantanamo Bay, Cuba (warm winter quarters for our Atlantic fleet) and Cris-tobal, Canal Zone. Then she pro-ceeded through the Panama Ca-

ceeded through the Panama Canal.

E. W. Dort, postmaster in San Diego, where I lived at the time, phoned me early in January and asked me to design and handle a cachet for that city's welcome to the ship. He said it was scheduled to arrive on February 13th. Sure I would. On January 21st he again phoned me to say—"Brehm, your OLD IRONSIDES is down at the dock." Why so far ahead of schedule?

poor 6-footer down there?

The bottom deck (still my own designation) was where the tremendous masts were anchored and where supplies of rope and where supplies of rope seemed to be stored. It was about 3½ foot high. Imagine a sailor going after a big hawser in the far corner, on his hands and knees! Guess elevation must have been at a premium on the old of schedule?

It later developed that the old girl had intended to come up from the Canal under her own sails; but I guess she was getting just a bit too old, or maybe the Pacific was a bit too rough. In any event, she had been towed to San Diego by a U.S. mine-sweeper without a sail on her sticks. Well, it gave her so much more time to stay, and she did. I had received 11,441 covers for cachet at my home, and over 7000 been at a premium on the old time sail-ships. That Captain Gulliver was a

That Captain Gulliver was a very particular man. Every time another batch of covers arrived, addressed to the USS Constitution, he would snort, in a mild sort of way, and say—"Look, Brehm, this ship was built a frigate; she has always been a frigate and she is still a frigate. Her postal cancellation reads U. S. FRIGATE CONSTITUTION. Now why must folks continue to adwhy must folks continue to address us as a USS?"

On the morning of February 16,

On the morning of February 10, 1933 I went down to the dock, as usual, but OLD IRONSIDES had "shoved off" (nautical slang). It seems that her schedule had caught up with her, and the minesweeper had come during the night, and she was on her way.

Holland in 1928 for the games in Amsterdam, United States in 1932 for the games in Los Angeles, and Germany in 1936 for the games in Berlin, had all issued stamps for the Olympic Games. If Britain comes through, it will be the sixth nation producing Olympic stamps.

HOME AGAIN
OLD IRONSIDES was scheduled to spend the winter of 1933 in San Diego. She left on March 15, 1934, down through the Panama Canal again, up the Atlantic occan once more, and on to her ocean once more, and on to her

ma Canar again, up the Atlantic ocean once more, and on to her home port.

She counted 4,614,000 visitors during her two tours and is estimated that more than ONE MILLION COVERS were cancelled on board. She was decommissioned on June 8, 1934.

In 1940 President Roosevelt once more gave full commission to the CONSTITUTION and her sister frigate CONSTELLATION. In 1941 Admiral of the Fleet Ernest J. King, then commander in chief of our Atlantic fleet, made the CONSTELLATION has partime flagship at Newport. The CONSTITUTION has acted as flagship for the various commandants of the 1st Naval District at Boston since 1941. since 1941

Both gallant ships lie side by side in Boston Navy yard today. The CONSTELLATION was 150 years old on 7 September 1947. The CONSTITUTION will be 150 years old 21 October 1947.

HAPPY BIRTHDAY, girls!

# The Publishers Of The Scott Catalogs Will Not List The San Marino Or Hungarian Roosevelts

It is with the exhilirating feeling of a job well done that we It is with the exhilirating feeling of a job well done that we learn via the medium of Kent B. Stiles column in the New York Times, that the Scott Catalog will not recognize the Hungarian and the San Marino Roosevelt stamps. It is also not going to recognize the stamps of Belgium, those semi-postals with the extremely high surcharge, allegedly, for charity. Then as a final announcement Gordon Harmer, publisher of the is giving serious consideration to the elimination of the listing of both the Guatemala and the Costa Rica Roosevelts.

Rica Roosevelts.

The announcement about the Guatemala Roosevelts will in all probability catch the editor of a contemporary in a most embarrasing position. For in the issue of his paper on September 13, he Guatemala Roosevers probability catch the editor of a contemporary in a most embarrasing position. For in the issue of his paper on September 13, he editorializes at great length about how nice the Post Office gang is down in Guatemala. He cites the same drivel that was sent to this paper by Louis Humberto Diaz, Director General of Communications in Guatemala. Since he nor his publication ever took a stand on anything and since the readers of it have never been told about the junk that has been aimed at their pocketbooks, it is apparent that making a stand is a strange of it have never been told about that making a stand is a strange of it have never been told about the junk that has been aimed at their pocketbooks, it is apparent that making a stand is a strange of it have never been told about the junk that has been aimed at their pocketbooks, it is apparent that making a stand is a strange of it have never been told about the junk that na been aimed at their pocketbooks, it is apparent that making a stand is a strange of it have never been told about the junk that na been aimed at their pocketbooks, it is apparent the one issued by San Marino. Costa Rica
The Sept. 1 issue of Aero Philatelists's News states that speculators have cornered the new Costa Rica Roosevelt stamps. Mr. Harmer said he would investigate such reports and similar comment on Guatemala's Roosevelt series

before deciding whether to chronicle them.

Mr. Harmer said he had been Mr. Harmer said he had been deluged with resolutions adopted by organized stamp groups protesting recognition of the Hungarian series, and that hundreds of individual collectors had written in support of that stand. These stamps have a face value equivalent to about 40 cents, but are currently being sold for more than stamps have a face value equivalent to about 40 cents, but are currently being sold for more than \$4 by some dealers. The stamps were merchandised to American collectors before being placed on sale in Hungary, and reports which have reached Scott's from various European sources indicate that few of the stamps were actually sold at Hungarian post offices. Some Hungarian collectors are said to have written to friends in the United States asking them to buy the stamps from American dealers and send them back to collectors in Hungary. Although Hungary has long used the Magyar language on stamps, the inscriptions on the Roosevelt items—"Freedom of Speech," "Freedom of Religion," etc.—are in English. The publishers of both the American and British standard catalogues say that this suggests that the Hungarian series was not prepared primarily for postal purposes,

paign to date which began with the expose of the San Marino is-sue, and has continued on all the above stamps written about by Mr. Stiles. The actual stirring of the national philatelic societies to action began with Linn's story on the Hungarian Roosevelts in the June 30 issue. Even after that news was revealed, it was a month before even the first of the other papers recognized what was other papers recognized what was going on in the attempts to milk the collectors. Linn's shall ever do its part in informing collector and dealer readers both of at-tempts to make them philatelic goats. The battle started by Linn's Weekly Stamp News exclusively is not yet completely won, but the final victory is in sight.

# Review Of Johl's Book On U.S. 20th Century Commems

The United States Commemo-The United States Commemorative Stamps of the Twentieth Century, Volume I, by Max G. Johl. Published by H. L. Lindquist Publications, 2 West 46 St. New York, N. Y. 356 pages, cloth binding; set of Vol. I and II at \$10.00.

There is no need in the present review of the above book to make any comment about the author, Max G. Johl. Johl has establishof excellence, and therefore is well known to all collectors who have been interested in the stamps of the United States. The author knows his United States stamps, their origins and the technical information about them and nical information about them, and in the present volume gives the reader a full measure of this knowledge.

Intended originally as a single volume the researches conducted by the author turned up such a quantity of information that a two volume work became a certainty. Volume I starts with the Pan American issue of 1901 and extends through all the commem-

deterioration in her hull timbers, rigging and appurtenances, repairing and replacing as necessary to keep her in good condition and attractive to visitors. Since the Constitution was opened to visitors on 3 September, 1945, approximately 100,000 persons, have come on board to see her.

So many requests to visit the Constitution were made by the public, during the war years, when the shipyard was closed to visitors, that a special appropriation was granted for the construction of a wooden pier, at the eastern end of the yard, where the constitution could be moored and constitution to the designs and submitted for the stamps, and submitted for the stamps, and submitted for the stamps, and such other items as the engravers designers. and

While all the above seems ponderous, Johl has assembled this information in such a manner, and has written it in such an easily read style, that it is a good guess that anyone picking up their copy of the book won't lay it down for quite a while because of its in-

stant appeal. In our own opinion Johl's book might be said to be an expanded super-deluxe edition of the Scott Specialized Catalog of United States stamps. But not only does it list the varieties reported in Scott's it adds some from its auof all illustrates them. The listing of the stamp varieties occupies a small part of the book though, the bulk of it being given to the interesting stories behind the

stamps.

This book and its companion volume, yet to be issued, is definitely a must for any collector who takes the collection of United States stamps seriously.
—Carl P. Rueth.

# This Is What The Man Says --

"Tve just been handed a sample copy of your Weekly and am happy to see it contains STAMP NEWS. I'm tired of looking at other magazines, plastered from cover to cover with advertisements, so here is my dollar for a years subscription," wrote Herbert H. Lahr of Phoenix, Ariz. Mr. Lahr is to be commended on recognizing a nice buy for a dollar when he sees it.

# British Wholesale Journal **Against Speculative Issues**

The "Philatelic Trader," the stamp trade and export journal printed by Harris Publication, Ltd., of London, England, has made the announcement that it is very much in back of the campaign to ban the recent speculative issues and the phony Roosevelt stamps that have been produced by many countries. They duced by many countries. They have lent encouragement to the firm of Stanley Gibbons in sup-port of Gibbons intention not to list these stamps in their catalog. They have also advised the many dealers who subscribe to their publication, to keep their hands off this material and thereby keep a clean connection with their

# British Collectors Of Polish Stamps Issue Own Journal

Those collectors who find quite a lot of interest in the stamps of Poland, will be pleased to know that a new publication has made that a new publication has made its appearance in England. Name of the Publication is "The White Eaglet." It is the official organ of the Polish Philatelic Society, and has as its editor H. M. Smith. The magazine has many items of interest to Polish collecting enthusiasts, and we note that some collectors in the United States have taken a membership in the organization. Those wishing to make a contact with the group should write to Mr. H. M. Smith, "West Ridge," Lower Wokingham Rd, Crowthorne, Beckshire, Eng-Rd, Crowthorne, Beckshire, Eng-

### Collector Buys 1879 Issue At Face Value

We had a visitor the other day from Columbus, Ohio, who made our mouth water, philatelically, that is. This gentleman was P. that is. This gentleman was F. Koch who was telling us about acquiring mint copies of the 1879 issue of United States stamps at face for his collection when he was a child. He has kept up to date on all issues since, and has caught up long ago, on the stamps before 1879. Mr. Koch claims that he gets a tremendous lot of recreation from stamps, and can never recall the time that he has ever lost faith in them as a hobby or otherwise.

### READER MAKES US **BLUSH WITH HAPPINESS**

When renewing his subscription to Linn's Weekly Stamp News, A. M. Pitts of Cleveland said some A. M. Pitts of Cleveland said some very nice things about our paper which, doggone it, makes us blush. He wrote, "You bet I am enclosing my "Buck" for another year of (in my estimation) the most up-right and authenic stamp information published. To me your weekly is as important to every Philatelist as a Scottt's Catalog." So there, he said it, and we're glad.

# Seal Of The Chicago Philatelic Society's 1947 Show & Bourse

The Chicago Philatelic Society has prepared their poster seal commemorating the 1947 Exhibition and Bourse with the intention of bringing the old stage coaches to public notice and which this year are the theme of the show. The show will be held in the Hamilton Hotel in Chicago from October 17th to the 19th. The seal depicts one of the early mail stage coaches at the early mail stage coaches at Frink and Walker's stage depot, which stood at the corner of Dearborn and Lake Streets one

### SOMETHING NEW IN STAMP COLLECTING

Thousands of American stamp collectors have already bought the famous HISTOR-ICAL ALBUM OF FRANCE and are pleased with it. This album is complete. American text describes every single stamp and set, not encyclopedle preachment, but assembled privately with attention to historical and philatelic detail. A multi-ring binder contains 130 loose-leaf pages covering all French issues (1849-1947) and supplements will be put on sale yearly. You need an album to properly house your French stamps. Such an album is the HISTORICAL ALBUM OF FRANCE, Also a CATALOGUE OF FRANCE is available, superbly illustrated (160 pages), with regularly issued supplements.

"You can quote me as saying that your French shum is a good deal more than you advertise. It is SUPERB! It is something to own and admire and I believe there is nothing to compare with it for sturdiness, beauty and instructiveness."

H. Sheldon, APS 21681, Chicago, Ill. Send \$1.00 today for the album and/or \$2.00 for the catalogue, customs and post paid. (Pergonal check or P.O. Money Order.)
